Five Days National Workshop on ‘Creation and Management of Digital Libraries Using Open Source Software’
From
January 7 - 11, 2019

Organized By
A.C. Joshi Library, Panjab University, Chandigarh
About The University

One of the oldest Universities in India, the Panjab University (PU) initiated at Lahore in 1882, has a long tradition of pursuing excellence in teaching and research in science and technology, humanities, social sciences, performing arts and sports. The University supports excellence and innovation in academic programmes, promotes excellence in research, scholarship and teaching. The University is committed to attract and support the best students and faculty, who excel at teaching and research. In independent India, Panjab University with its Campus at Chandigarh and nearly two hundred colleges in Punjab state and Chandigarh U.T., has served various societal needs with distinction. Its faculty includes some of the most distinguished scientists and academicians. Over the years, the reputation of the Panjab University has grown to emerge as an institution at the pinnacle in innovative teaching, research and community outreach. Panjab University is located in Sector 14 and Sector 25 of Chandigarh, spreading across an area of almost 550 acres.

A.C. Joshi Library

The Panjab University Library, named officially as "A. C. Joshi Library", after the name of an illustrious Vice-Chancellor of this University. The five storied impressive Library building in red stone and concrete is based on modern principles of architecture. Its modular and functional style fulfills the purpose of a planned Library. The Library building centrally air-conditioned and has a seating accommodation of 500 readers. Besides the two main reading halls there are reading rooms in the Periodicals and Special Collections Sections, and an Outer Reading Hall for studying personal books. The Library has a collection of over 6.4 lakh publications which include books, bound volumes of journals, theses/dissertations, rare books, reports, government documents, back files of newspapers, and a prized collection of 1490 manuscripts. The Library is fully computerized with an integrated system connected to the Campus Network providing Internet and e-mail facility to the University community. The Library is continuously updated, and augmented with the acquisition of CD-ROM databases and access to on-line databases on Internet. Library collection can be searched through Web OPAC.

About the Workshop

Libraries are the backbone of any organization. Libraries have to continuously adapt to the changes in order to maintain their position and also to evolve as a hub of knowledge and information resources. Major components for libraries in today’s time are library automation, digitization and content management. These necessary components are needed not only for developing awareness and library professional knowledge as well as for managing distinct online and offline information and literature. This workshop is being organized for library professionals to accomplish these goals.
Areas Covered

1. Focus on emerging technologies
2. Library automation and open source software
3. Digital archiving
4. D-Space installation
5. D-space hands on practice
6. Institutional Repositories
7. Community involvement

Extended Target Participants

Librarians (Academic, public, school or special libraries), information professional, knowledge managers, teachers, researchers and students of the library and information science or any other interested professionals.
